DETAILED ACTION

- 1) Acknowledgement is made of Amendment received 9/9/2005. Claims 1, 10, 16-20, are amended.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 2) Claims 1-20, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, recites the limitation "the bleach stage" in line 6.

Claim 1, recites the limitation "the next bleach stage" in line 6.

Claims 2, 3, recite the limitation "said bleach stage" in line 1.

Claim 12 recites the limitation "the stabilizing compound" in line 1.

Claims 16-20 recite the limitation "said oxydation reaction" in line 1.

There is insufficient antecedent basis for the limitations in the above claims.

Claim 1 is not clear what is meant by "the next bleach stage"; does it indicate that a bleaching has occurred before the next bleaching stage.

Claim 11 is not clear as to what compound is EGK-TAA.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3) Claims 1-20, are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Jewell (6,379,494). Jewell discloses a buffered solution at pH 9.7 made by adding NaHCO_3 and Na_2CO_3 (which reads on base chemicals) of deionized water, being added in a mixer to bleached pulp forming a slurry. The slurry is then reacted with TEMPO (which reads on oxidation chemicals) with mild agitation in a mixer thus forming an oxidized pulp. Additional NaOCl solution (which reads on stabilizing chemicals) is added slowly into the slurry for a period of seven minutes. The reaction is continuing for an additional 18 minutes and the treated pulp is filtered and washed with deionized water (col. 8, lines 35-68). Any differences over Jewell are obvious to one of ordinary skill in the art.

Response to Amendment

- 4) Applicant's arguments filed 9/9/2005, have been fully considered but they are not persuasive.

Applicants allege that the cited prior art, Jewell, does not disclose the process because the process is described as a laboratory method rather than a pulp mill process and it took a period of time since the laboratory process was turned into a mill process.

Jewel discloses the process under item 3, above.

Conclusion

- 5) **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
